## Approved For Release 2002/06/10 : CIA-RDP68-00140R000200430010-2 1 April 1964

Col. White:

- 1. We were advised today that State Department sent a cable to all posts advising that first class air accommodations could be used only;
  - a. By Ambassadors or Chiefs of Missions,
  - b. When less than first class was not available and a delay would not permit accomplishment of the individual's mission,
  - c. When travel is for medical reasons and the comfort of the individual dictates use of first class accommodations.
- 2. You indicated that you wanted to discuss this with Mr. Porter or Mr. Crockett of State Department to determine whether this change in policy was a continuing one, or was issued at this time because of budgetary considerations.
